It's a cross-platform application that runs on Android, iOS and Windows mobile devices. It allows you to buy and sell by utilizing the price of each item. The application connects you with people like you who want to sell stuff. You can buy or sell even mundane items like t-shirts, wearables, gadgets, and more! How does it work? When you are on Poshmark.com you are taken to a page where you can

search the site for items that you are interested in buying or selling. You can type in the category, brand or collection name that you would like to search for. You also have the option to search for specific items like size, color or style. You can also search by price or seller rating. The tool shows you all the items that match that search criteria, you can either click on the price tag to go through the buy page or you can select the "add to cart" button to add the item to your cart. The application also connects you with like-minded people who want to sell or trade items, click on their profile and you will be connected to their cart, offering a quick method of buying. The Poshmark tool works similar to the like-minded recommendations feature on LinkedIn, where you can see what your friends are buying and selling. The app works with eBay as well, so you can quickly buy and sell on eBay when you are on the Poshmark site. The application also has various filters to narrow down your search. You can sort by the price, seller rating, price range, gender, accessory, style, size and much more. You can also search by the brand, type of garment and materials. The price range is between $10 to $1000, so be warned if you enter a price range like that, you might be asking a little too much, but for creative and unique pieces it could be a fun experience. You can also utilize the buttons above the search bar, they will allow you to browse 6a5afdab4c
