December 18, 2015 â€” Hello, I bought a USB powered Mixvibes FirstMix desktop controller, serial number DNxxxxxxx that came with Mixvibes Cross DJ LE 2.0.2. I have a few questions, please answer them. Do you have a solution for my problem? My controller doesn't work anymore, I can only make one track on one output and another on the second, but all tracks go at the same time. Is it because of incompatibility? Is there a solution? Thanks! â€” From: Davidson -- Dec 18, 2015 - Hello, I bought a USB powered Mixvibes FirstMix desktop controller, serial number DNxxxxxxx that came with Mixvibes Cross DJ LE 2.0.2 .

Toronto police are investigating after a fight on a downtown streetcar left a man with a broken jaw, broken teeth and a broken nose. The fight happened at around 10 p.m. on a King streetcar heading east along Bloor St. W. from Queens Quay to Union Station. One man was sitting on the inside of the streetcar when the fight broke out, according to police. Witnesses said the altercation between the two men began after a dispute over a cellphone. A woman came to the streetcar's rescue, and stood in between the men as they scuffled. She was not injured. The police say that one man was taken to hospital after the brawl and has since been released. He has not yet been charged. Police are investigating and look for anyone else who may have witnessed the fight.
